

## Appliances properties: RIKA Innovative Ofentechnik GmbH - Induo

| Master data                                |  |
|--|--|
| Date of entry                              | May 9, 2018                              |
| Manufacturer                               | RIKA Innovative Ofentechnik GmbH         |
| Model                                      | Induo                                    |
| Nominal heat output [kW]                   | 10                                       |
| Declared nominal space heating output [kW] | 10                                       |
| Partial load [kW]                          | 3  |
| Part load space heating output [kW]        | 3  |
| Continuous burning appliance               | <u> </u>                                 |
| Type test standard                         | Kombigerät                               |
| Year of testing                            | 2012                                     |
| Test laboratory                            | Technische Universtität Wien             |
| Number of test laboratory                  | 7  |
| Number of test report                      | PL-12101/1-P, PL-12101/2-P, PL-12101/3-P |
|  |  |

Flue gas values

|                             | Wood  | Pellets |
|-----------------------------|-------|---------|
| Flue gas mass flow [g/s]    | 10.1  | 5.4     |
| Flue gas mass flow [g/s]    | 216.2 | 214.7   |
| Necessary flue draught [Pa] | 12    | 3       |

| Further important characteristics of the appliance          |   |
|---|---|
| Suitability for installation to a shared flue <sup>1)</sup> | — |
| Connectivity to the central heating system                  | - |
| General technical approval for room sealed operation        | - |
|   |   |

<sup>1)</sup> For unsealed operation it is possible to install the appliances to a shared flue system (please see installation manual).

On behalf of the manufacturer, the HKI Industrieverband e.V. hereby confirms compliance with the respective requirements\* in accordance with 1.BImSchV. The type test report of the fireplace has been submitted to the HKI Industrieverband e.V.

\* A green check mark with a "1" indicates that the requirements of the 1st BImSchV are fulfilled, a green check mark with a "2" indicates that the 2nd level of the 1st BImSchV is fulfilled. A yellow check mark shows that the transitional regulation of the 1st BImSchV is fulfilled and a red line means that the 1st BImSchV is not fulfilled.
